

BOOKSTORE ASSIGNMENT

Name	SHRAVANI KHADILKAR
Roll No.	61
Assignment	BOOKSTORE

C++ Program

```
#include <iostream>
#include <string>
using namespace std;

class Book {
private:
    string title;
    string author;
    float price;

public:
    void getDetails() {
        cout << "maybe in another life: ";
        getline(cin, title);
        cout << "Chetan Bhagat: ";
        getline(cin, author);
        cout << "300: ";
        cin >> price;
    }

    void displayDetails() {
        cout << "\n--- Book Details ---" << endl;
        cout << "maybe in another life: " << title << endl;
        cout << "chetan bhagat: " << author << endl;
        cout << "300:" << price << endl;
    }
};

int main() {
    Book b;
    b.getDetails();
    b.displayDetails();
    return 0;
}
```

Output

```
maybe in another life:
Chetan Bhagat:
300:

--- Book Details ---
maybe in another life:
chetan bhagat:
300:
```
